DecoCoat is an innovative coating process for metal surfaces, with which they can be given a wooden, stone or metal look finish.

Even your own motifs like colour photos, your logo, a graphic design of your own, lettering, etc., can be printed with photo quality on the back panels or shelves of our shelving systems.

## DecoCoat

enables extremely flexible shopfitting. Seasonal product accompaniment is possible without major financial expense or time – simply replace the back panels with a winter landscape with back panels with pictures of spring – ready.

DecoCoat is suitable for all industries and offers optimum value for money. Cost-effective printing of the back panels and shelves, precisely as you want them.

DecoCoat assists the development of brand awareness at the point of sale and, therefore, supports image-building, i.e. consistent implementation of CI specifications right through to POS shelving.

DecoCoat enables clear differentiation from cheap imports. The quality standard of the presented goods is clearly emphasized.

DecoCoat allows universal design options in shopfitting and everything can be implemented in a single shopfitting system, i.e. as part of the overall planning, you obtain everything you need from a single source: shelving – advertising – decoration – CI.

DecoCoat Formats up to 200x80cm can be printed.

DecoCoat arouses emotions – no anonymity in the shop. DecoCoat guarantees relevance – topicality – attention – sentimental value – recognition.

DecoCoat enables clear differentiation from competitors.

DecoCoat its outstanding features are top quality and durability as well as optimum value for money. No plastic films or sheeting are used.

DecoCoat shelving systems are food safe and are therefore suitable for all industries.

They can be disposed of in the usual waste systems, and do not require any hazardous or toxic waste measures.

## INDIVIDUALLY DESIGNED DECOCOAT

Choose your theme, whether it's your own design or ready-made decor, and make sure the file meets the following criteria:

Make sure that your image is saved in the correct image size, the correct file format and in the correct colour model.

Image Size: 300 dpi, min. 100 dpi

File format: Texts in EPS file format

Image format files: TIFF

Colour model: CMYK

All high resolution / high quality images can be enlarged to the desired format without any problems.

Images with a low resolution / low quality can-not be enlarged and are in the magnification shown as blurred and pixelated.

Please send us your data on CD or DVD. The data exchange via FTP server is possible on request.

Not vectorised logo

Vectorised logo

**Example:**

A picture has an image size of 24.13x17.98cm 100dpi resolution. If you wished to apply this photo for example to a back panel with a size of 100x40cm, it would then only have appr. 44dpi and so would not be suitable, as the photo must have at least 100dpi in its end format.

**Bildgröße**

Pixelmaße: 1.92 MB

Breite: 950 Pixel

Höhe: 708 Pixel

Dokumentgröße:

Breite: 24.13 cm

Höhe: 17.98 cm

Auflösung: 100 Pixel/Zoll

Stile skalieren

Proportionen beibehalten

Interpolationsverfahren:

Bikubisch (optimal für einen glatten Verlauf)

## APPLICATION EXAMPLES FOR TOY SHOP

The rear panels with the logos of individual manufacturers can be simply exchanged, creating a neat and clearly ordered showroom.

## EFFECTS WITH LIGHT

Create interesting effects by the creative use of light. We use laser technology to cut out your logo or any other motif from the front panel of the counter or the back panel and then provide backlighting. The result is a game with light which creates an impressive spatial effect.

## THE ELEGANCE OF WOOD DECOR FINISHES

These wood effects are produced by high-quality DecoCoat surfaces D1 (fine structured).

Maple (828)

Wild bear, bleached (813)
